GATLING'S NEW GREAT GUN Finishing Touches Being Put Upon it at Cleveland, Ohio,

Cleveland, O., Feb. 24.-Dr. R. J. Gatling the inventor of the famous gun which bears his name, has just arrived in Clevefand to conduct the finishing touches to the big gun being constructed for the povernment here. In an interview Dr. Gatling snid:

"Yes, I shall make every endeavor to hasten the work upon the gun, in view of the present altuation. Although nothing has been said to me by the government upon the subject, I know the feeling and the efforts that are everywhere being made to busten preparations.

"The big gun may perhaps be ready to send east in a week, and if the lathes are not too busy at Washington, which I rather fear is the case, it may be rifled in about a fortnight.

"Of course, what the gun will do depends altogether on the firing tests to be to precipitate war with Spain. Up to the made when it is finished, but so far present I do not think war is either neceseverything is favorable. The tests of tenbuilt-up guns runs about 90,000 pounds.

do what the government is now trying to do. With the recent guns we have placed at harbors, and by blocking the channels with sunken ships, we might protect the coast. If we should try with all our

General Miles, the head of the United States army, and other members of the bureau of ordnance will be in Cleveland in a few days, probably next week, to see the final work on the new type of big const defense guns.

Coughs

are not distinguished by any mark or sign from coughs that fail to be fatal. Any cough, neglected, may sap the strength and undermine the health until recovery is impossible. All coughs lead to lung trouble, if not stopped.

Ager's Cherry Pectoral Cures Coughs

"My wife was suffering from a dreadful cough. We did not expect that she would long survive, but Mr. R. V. Royal, deputy surveyor, happened to be stopping with us over night, and having a bottle of Ayer's Cherry Pectoral with him, induced my wife to try this remedy. The result was so beneficial that she kept on taking it till she was cured."
R. S. HUMPHRIES, Saussy, Ga.

"My little daughter was taken with a dising cough, which for three years defied all the remedies I tried. At length, on the urgent recommendation of a friend, I began to give her Ayer's Cherry Pectoral. After using one bottle I found to my great sur-prise that she was improving. Three bottles completely cured her."

that conservative judgment will not be influenced by reports which at the Spanish legation are regarded as untrustwor-

and are seeking to allay everything which might inflame public sentiment. Recently an incident occurred at a small city which might have given the ground for official attention had it not been smoothed by tactful action by the Spanish officials at the place of the incident The aggressive element prevailing in this local community found expression against the Spanish consular agent located at that point. Under ordinary circumstances he would have brought the indignities to the attention of the Spanish officials here, In which case it would of necessity have been made the subject of official attention. Instead of doing so, however, the Spanish agent appealed to the mayor of the city and a satisfactory adjustment was made without any appeal to the auhorities here. The incident was closed efore there was even the opportunity of friction, and it is cited as an instance of the desire of the Spantsh authorities to

The Spanish cruiser Vizcaya will probably sall tomorrow for Havana. That, discretion of Captain Eulate. It is probable that she would have gone perore this time if it were not for the misleading im-pression which an early departure might asion. Receipts received today at the legation speak with satisfaction of the courtesies which the government officials at New York have shown to the officers and crew of the ship.

Captain Sobral, late naval attache of the legation, came to Washington yesterday and conferred with Senor Du Bosc. Any misunderstanding which has occurred as to his official status is due to the fact that the official notification of the mination of his service has not come to him from the naval chiefs under whom he serves. The decree was formally gatetted, however, and during Captain Sobral's visit here he received orders from Madrid to report there at once. He there fore will take an early steamer, and this apparently disposes of the incident with which his name has been connected.

The whereabouts of the steamer Dauntless, said to have sailed from Florida with a fillbustering expedition, is beginning to excite much comment. The expedition is said to have sailed over a week ago and there has been ample time for her to reach Cuba. No reports to this effect have been received. It is felt that she must have encountered heavy weather and is possibly disabled, or else has made a quiet landing and is now cruising about to secure a safe avenue of escape from the Spanish ships in watch-

MAINE SHOULD BE DRY-DOCKED Captain Fernald Gives Many Excellent Reasons Why.

Washington, Feb. 24.-Captain Frank L. Fernald, the naval constructor (recently retired) who superintended the finishing construction of the battle ship Maine at the Brooklyn navy yard, advises that the wrecked vessel should be immediately raised and dry-docked.

Captuin Fernald is now in San Franisco. He has his won ideas about the explosion. The ship, he says, should be ruised, so that the country need not depend on the word of a diver to determine whether it shall go to war or not. It would not be just to do so, the captain thinks. Secondly, by raising the ship a great object lesson can be taught the pays Washington, Feb. 24.- Late tonight the men. If a torpedo was used they can find was destroyed by an inward explosion there is all the more necessity for a care nstruction the same reasons apply.

Captain Fernaid thinks that a spontancons explosion within the ship was impossible. He knew every inch of her. This dienarch indicates that the Alvers He save that she must have been debeavy work. Tuskogee, Ala., Feb. 24.-At the seventh

annual negro conference held in the normal school pavillon here, about 2,000 colored farmers, representing nearly every southern state, were present. With them show every forbearance and friendly were many prominent men and women engaged in the various branches of negro education. The meeting was enthusiastic. however, is a matter wholly within the The speech of Bishop Grant of the A. M. E. church was greatly appreciated. Booker T. Washington presided. To encourage gardening, a package of seeds was given to each one present. The result of the conference was the unanimous adoption of the following declarations:

"Wherever our people have been reach-ed by outside influences we believe there is constant growth in acquiring educa tion, building school houses, extending the school term, developing Christian character, improving and purifying the ministry, securing land, diversifying crops, raising fruit and poultry, replac ing the one-room cabin, ceasing to mort gage crops, getting out of debt and living more economically,

"In saying this we would not be misunderstood, but emphasize the fact that wherever the rank and file of our people have not been touched by some outside influence their condition, as to property education and morality is most unsatis factory and will demand for a long time the earnest help and thought of the best people of our country. The possession in larger degree of the elements of strength enumerated above, we believe, will con-stitute the foundation for all the higher rights and privileges of citizenship which

every race should enjoy. "Since & per cent of our people in the gulf states live by agriculture, we strongly urge that, along with other forms of education, special stress be laid upon training upon agriculture. We earnestly urge all to buy land, if only in small tracts, while it can be secured at a lov price. We would especially call attention to the large amount of government land in the south open to settlement. We feem it of vital importance that the edu cated young men and women bear in mind that they owe it to the race to give those less fortunate, the benefit of their education in every way possible. We urge that local negro conferences or other organizations with the same object be formed throughout the south. We believe the holding of annual county fairs would prove most helpful. We strongly beseech our people not to be satisfied with their present condition, but to reach forward to something higher and better." The conference of educators will be held
